the copy of a copy of a fascimile makes these pics kinda artistic, at the end of the thread i will share the source ofc.

this is my fav of the day.

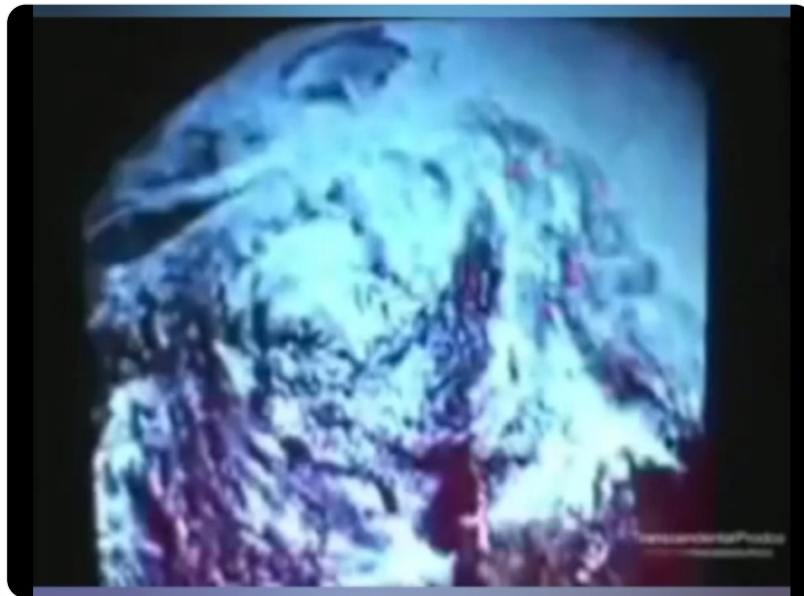

look me in the eye

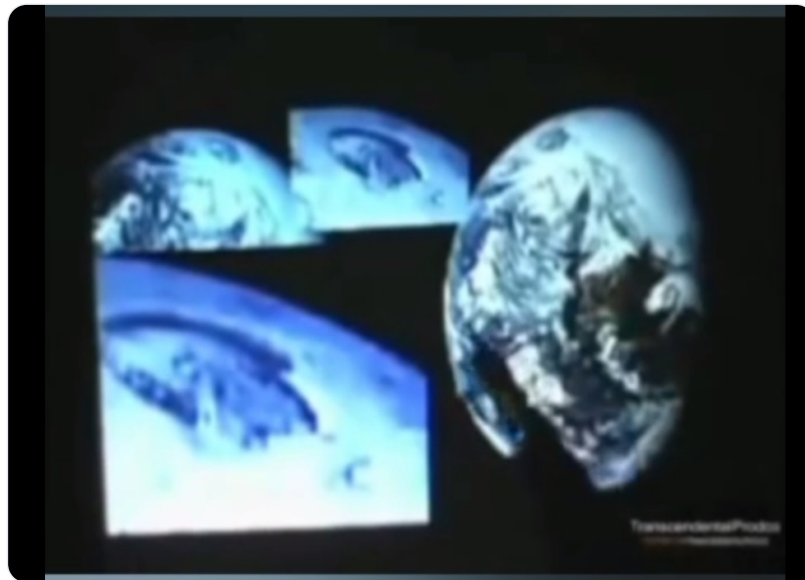

are you seeing it already ?  
its a little blurred by the waves.

its a satellite picture.

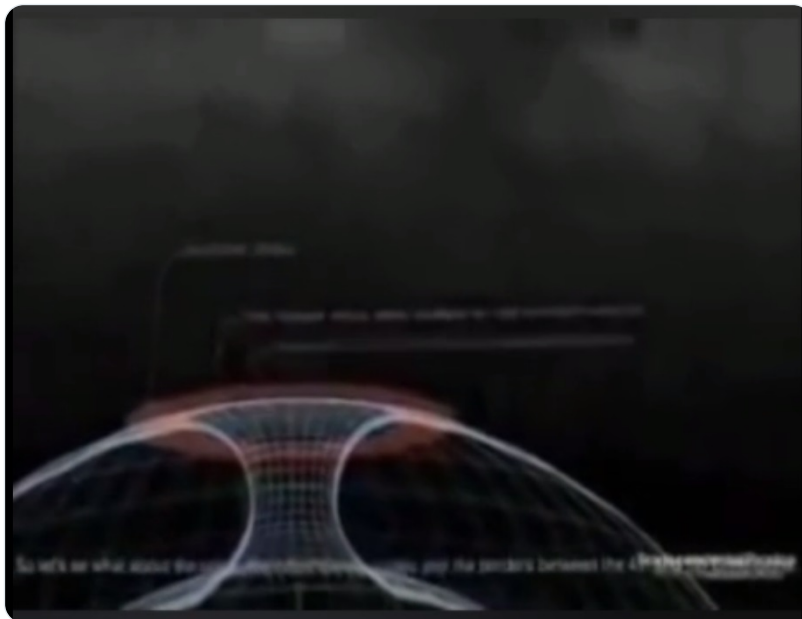

the speaker will point it out for you.

you see it now ?

is this from iss maybe ?

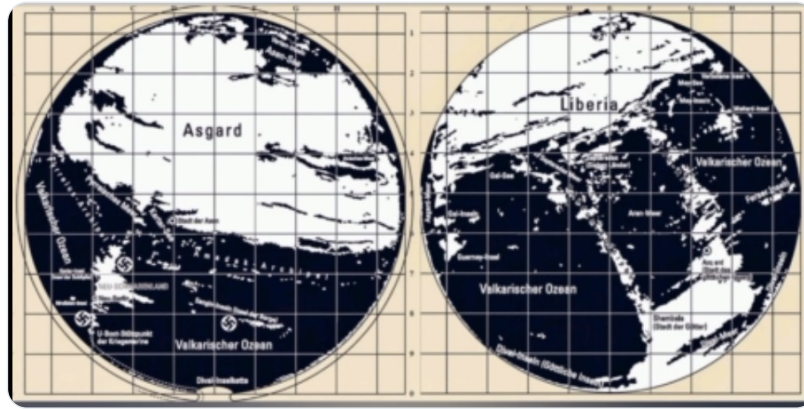

hm, picture this :

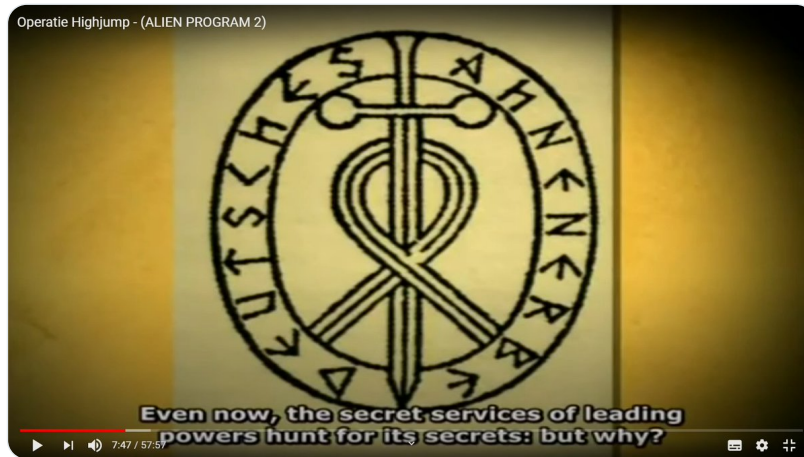

german map

it was topsecret, but not destroyed.  
there was no reason ...

maybe watch the video yourself, there are more ofc.

this was todays video from wich i made the "artists impression."

A collage of images related to the AGAHRTA - ANTARCTICA ENTRANCE TO INNER EARTH. It includes a map of the Antarctic region, a document with the text "44-Nr. 1480" and "Wach Wächter vom Wächter in der Wächterabteilung BEI GEFAHR ALS ERSTES VERNICHTET!", and portraits of various figures including Valther Hallstein, Adolf Heusinger, and NATO's Chief of Staff.
